

THE UCF PUERTO RICO RESEARCH HUB PRESENTS:

THE FUTURE OF PUERTO RICO: THE PUERTO RICO MUSEUM OF NATURAL HISTORY AND CONSERVATION

OCTOBER 3, 2024
12:00PM-1:30PM
VIRTUAL

The Puerto Rico Museum of Natural History (MHNPR) and Conservation is key to the future of Puerto Rico. During the event, MHNPR members will highlight the island's natural and historical richness spanning over 100 million years.

They will cover topics from Puerto Rico's biodiversity and geology to its Taíno and colonial heritage, aiming to inspire cultural pride and advance education on environmental conservation.

Free and open to the public.
Registration required to receive Zoom Meeting information.

Hosted in partnership with the UCF Office of Global Perspectives and International Initiatives.
